'an experimental
approach to
linguistic
representation
february 6th, 2020 -
within the cognitive
sciences most
researchers assume
that it is the job of
linguists to
investigate how
language is
represented and that
they do so largely by
building theories
based on explicit
judgments about
patterns of
acceptability whereas
it is the task of
psychologists to
determine how
language is processed
and that in doing so
they do not typically
question the
linguists'
