**parallel ghc project haskell**  
May 5th, 2020 - overview the  
parallel ghc project is an  
msr funded project to push  
the real world use of  
parallel haskell the aim is  
to demonstrate that parallel  
haskell can be employed  
successfully in industrial  
projects in the last few  
years ghc has gained  
impressive support for  
parallel programming on  
modity multi core systems'
